

## Door Handles and Adapters for Pyxis® Locks

Special accessories are available for facilities that install the Pyxis Remote Manager and Smart Remote Manager on Helmer upright refrigerators, undercounter refrigerators, and undercounter freezers.

### Pyxis Compatible Door Handles (Upright Models)

The door handle features a cutout and spacer which enable the Pyxis lock to wrap around the front and side of the door.

- Available for single door upright refrigerators  
11, 20, 25, and 26.5 cu ft (326, 572, 714 and 750 l)
- Compatible with glass and solid doors
- Factory or field installation

### Pyxis Lock Adapter Kit (Undercounter Models)

The adapter kit includes an extension bar and alternate handle that mount to the door of the unit, allowing the Pyxis lock to be properly installed.

- Adapter kits available for undercounter refrigerators and freezers  
(5 cu ft / 142 l)
- Compatible with glass and solid doors; powder coated and stainless steel exteriors
- Factory installed or field installation kits available
