

CleanBath for QuickThaw® Plasma Thawing Systems

For your convenience, Helmer offers CleanBath, a product that will help keep your water bath clean and odor-free. While intended for use in the Helmer Plasma Thawing Systems, CleanBath may also be used in other laboratory water baths. Each 8-oz bottle of CleanBath treats approximately 300 gallons of water and is compatible with stainless steel baths. Contact Helmer (USA and Canada) or your local distributor to order CleanBath today.
